PROFESSIONAL SUMMARY

I am a Computer Science and Engineering student and Full-Stack Developer specializing in Automation. Expert in building Python-based applications and decentralized systems. Proven ability to architect end-to-end automation workflows using Make.com and integrate complex backend logic with modern web frameworks.

TECHNICAL SKILLS

- **Languages:** Python (oops), SQL (MySQL), HTML5, CSS3, JavaScript
- **Frameworks & Tools:** Flask, VS Code, Git, GitHub
- **Platforms:** Vercel, Make.com (Automation), Automation Anywhere (RPA)
- **Specializations:** Blockchain Technology, AI Workflow Integration, Responsive Web Design

TECHNICAL CERTIFICATIONS

NxtWave Academy | Industry Ready Certification (CCBP 4.0)

- **AI Workflows & Automation:** Developed end-to-end automation workflows using **Make.com**, integrating AI agents, MCP servers, and APIs.
- **RPA Foundations:** Mastered **Robotic Process Automation (RPA)** using **Automation Anywhere**, including logic design, looping, and bot deployment.
- **Programming Foundations:** Validated expertise in **Python** for core programming and backend logic.
- **Database Management:** Certified in **Introduction to Databases** and **SQL** for structured data handling.

- **Web Development:** Completed certifications for **Static** and **Responsive** website construction using **Bootstrap** and **Flexbox**.

KEY PROJECTS

Secure Land Registration System

- Designed a decentralized application (DApp) utilizing **Blockchain technology** to create a transparent, immutable ledger for land transactions.
- Collaborated in a team of three to implement cryptographic verification, successfully reducing risks of manual tampering and fraud.

Automated Portfolio & DNS Infrastructure

- Architected a professional site using **Flask** and **Vercel**, managing global DNS propagation through the **is-a-dev** open-source registry.
- Integrated a **Webhook-based automation bridge** via **Make.com** to handle real-time inquiries and automated lead notifications.
- Successfully cleared all **CI/CD technical checks** for deployment, demonstrating mastery of Git-based version control.

EDUCATION

B.E. in Computer Science & Engineering (2023 – 2027) *Sri Krishna College of Technology, Coimbatore*

HSC – Computer Science (2021 – 2023) *Bannari Amman Public School, Sathyamangalam*

EXPERIENCE

NxtLogic, Coimbatore – Completed internship at NxtLogic and learned advanced python.

DECLARATION

I hereby declare that the above information is true and correct to the best of my knowledge.
